## POWER REAPER

The MT-120A Self-Propelled Power Reaper is a powerful and efficient machine designed for cutting crops like paddy and wheat. It features a 4.5 ft cutting bar, 1200mm cutting width, and a minimal 50mm cutting height for clean and precise harvesting. Powered by a 4.8KW (6.5HP) 170F petrol engine with a 3.6L fuel tank, it ensures reliable and long operation. The reaper supports 4-line cultivation, offers smooth maneuverability with sidewise and banded placement, and delivers an output of 2–3 hours per 0.4 hectares. Weighing 220kg, it is easy to handle and highly productive—perfect for modern farming needs.

**Model : MT-120A**

**Cutting Width (mm): 1200mm**

**Mini Cutting Height: 50mm**

**Reaper Cultivation: 4 lines**

**Placing Type: Sidewise & Banded**

**Placed, Power: 4.8KW (6.5HP)**

**Petrol engine 170F**

**Engine type: 4-stroke**

**Fuel Tank Capacity: 3.6L**

**Oil Tank Capacity: 0.6L**

**Productivity: 2-3hr/0.4ha**

**Gross Weight: 220kgs**
