POWER REAPER

The MT-120 Self-Propelled Power Reaper is a high-efficiency machine designed for harvesting crops like paddy and wheat. It features a 4.5 ft cutting bar, 1200mm cutting width, and a 50mm minimum cutting height for clean, precise operation. Powered by a 4.8KW (6.5HP) 170F petrol engine with a 3.6L fuel tank, it ensures reliable and long-running performance. The reaper supports 4-line cultivation with smooth sidewise and banded placement for better maneuverability. With a productivity rate of 2–3 hours per 0.4 hectares and a lightweight 180kg design, the MT-120 offers powerful performance, easy handling, and excellent efficiency for modern farming.

Model : MT-120

Cutting Width (mm): 1200mm

Mini Cutting Height: 50mm

Reaper Cultivation: 4 lines

Placing Type: Sidewise & Banded Placed

Power: 4.8KW (6.5HP) Petrol engine 170F

Engine type: 4-stroke

Fuel Tank Capacity: 3.6L

Oil Tank Capacity: 0.6L

Productivity: 2-3hr/0.4ha

Gross Weight: 180kgs
